Product Description

Product Description:

This product is not just durable but also hygienic, making it an ideal choice for environments where cleanliness is of utmost importance. Its smooth and non-porous surface makes it easy to clean, reducing the risk of bacterial growth and ensuring a safe and healthy environment. The Antibacterial Powder Coating on the product adds an extra layer of protection against germs and bacteria, making it an even better choice for high-traffic areas.

The Stainless Steel Antibacterial product is also environmentally friendly, making it a responsible choice for those looking to reduce their carbon footprint. Its long lifespan means it does not need to be replaced frequently, reducing waste and overall carbon emissions. Additionally, it is manufactured using sustainable practices, ensuring minimal impact on the environment.

This product meets various international standards, including ASTM, DIN, AISI, JIS, and GB, making it a reliable choice for customers across the globe. Its quality is assured, and its performance is consistent, ensuring peace of mind for customers who require a high-performing product.

Technical Parameters:

Antibacterial Raw Material	Austenitic Stainless Steel
Type	Cookware
Standard	ASTM, DIN, AISI, JIS, GB
Surface	2B, HL, 8K, ect
Coating	Z30-Z40
Length	Custom
Hardness	Full Hard
Tolerance	±1%
Hygiene	Easy To Clean
Cleaning	Easy
Eco-Friendly	Yes
Additional Attributes	Anti Rust And Anti Corrosion Additives

Applications:

This product is perfect for a variety of applications and scenarios, including:

Cookware: The Tai-steel Stainless Steel Antibacterial product is an excellent choice for cookware. It is easy to clean and maintain, making it ideal for use in busy kitchens. Plus, its Austenitic Stainless Steel construction ensures that it will last for years to come.

Hygienic Environments: The antibacterial properties of this product make it a great choice for use in hospitals, laboratories, and other hygienic environments. It is easy to clean and sanitize, helping to prevent the spread of germs and bacteria.

Decorative Applications: The Tai-steel Stainless Steel Antibacterial product is also an excellent choice for decorative applications. Its sleek and modern look makes it a popular choice for use in interior design, architecture, and other decorative applications.

In addition to its versatility, the Tai-steel Stainless Steel Antibacterial product is also eco-friendly and easy to maintain. Its Austenitic Stainless Steel construction makes it resistant to corrosion, ensuring that it will last for years to come. Plus, it is certified by ISO-9001, ensuring that it meets the highest standards of quality.

If you're interested in purchasing the Tai-steel Stainless Steel Antibacterial product, the minimum order quantity is 1 ton. The price is 1550, and delivery time is about 15 days. Payment terms are TT payment, and the product meets the ASTM, DIN, AISI, JIS, and GB standards. The length is custom, ensuring that it will meet your specific needs and requirements.
